Robert J. Trenschel, D.O., M.P.H., has been an integral part of the Palm Beach County Health Department for almost ten years. Dr. Trenschel currently holds the post of Clinical Services Director with the PBCHD, the largest county health department in Florida. An active member of several osteopathic medicine professional associations, he has been recognized by the American Osteopathic College of Occupational and Preventative Medicine with a Murray Goldstein Lecture Award. Among his other major professional accomplishments, Dr. Trenschel has been awarded over $2 million in grants throughout his career and continues to be the residency program director, as well as a clinical associate professor, for Nova Southeastern University’s General Preventative Medicine program. Dr. Trenschel obtained his degree in osteopathic medicine from Nova and his Master’s in Public Health from Florida International University.

H. Virginia McCoy, Ph.D., is currently a graduate studies professor at FIU’s Dr. Robert R. Stempel School of Public Health and formerly was the department chairperson for over six years. She has been a part of the FIU family since 1986 and over the years has provided a steadfast commitment to excellence in and out of the classroom. Throughout her career at FIU, Dr. McCoy has been recognized for her outstanding efforts and achievements in research and faculty development and, most recently, was presented with the 2004 Service Award by FIU’s College of Health and Urban Affairs for her continued altruistic contributions outside the classroom. A prolific author of numerous research publications in the areas of cancer-related health behavior and HIV/AIDS among women and minorities, Dr. McCoy earned her doctorate and master’s degrees from the University of Cincinnati in Ohio before coming to FIU.
